SAFETY INSTRUCTIONS

The full safety instructions are documented in the user manual.
Download the user manual at www.avonic.com

Important Precautions

This Product is NOT intended for use where failure of the device could lead to death, personal injury, or severe environmental damage.

Be sure that you have COMPLETELY READ and UNDERSTOOD ALL information in this Manual before unpacking, installing and using this Product. Keep the Manual in a safe place for future reference or download it from www.avon-ic.com.

Failure to follow the SAFETY NOTES as described in this chapter could result in fire, electric shock, injury, or damage to this Product or other property.

Power this Product ONLY with the included cable and power adapter. Other adapters may not meet applicable safety standards, and could pose a risk of death or injury when connected.

Installation

This applies to the installation of the Product: The installation activities described should ONLY be executed by experienced technicians. The installation activities should NOT be executed by minors, mentally disabled persons or other persons not qualified to perform these tasks.

Handling

To prevent the risk of injury, take the following precautions when handling this Product:
- Handle the Product with care. It is made of metal, glass, and plastic and has sensitive electronic com-ponents inside.
- The Product can be damaged if dropped, burned, punctured or crushed, or if it comes into contact with liquid.
- If you suspect damage to the Product, discontinue its use, as it may cause overheating or in.

Ventilation

To prevent the risk of life-threatening injury or damage to the Product or other property, caused by electric shock or fire hazard due to overheating:
- Maintain adequate ventilation by NOT installing or placing the Product unit in a bookcase, built-in ca-binet or any other confined space.
- Ensure that curtains or any other material does NOT obstruct the ventilation.

Repair

Take the following precautions if the Product should be repaired:
- Don't open this Product and don't attempt to repair it yourself. Disassembling the Product may damage it or may cause injury to you.
- If this Product is damaged, malfunctioning, or if it comes into contact with liquid, contact Avonic or an Avonic Authorized Service Provider.
- Repairs by service providers other than Avonic or an Avonic Authorized Service Provider may not involve the use of Avonic genuine parts and may affect the safety and functionality of the device. You can find more information about repairs and service at www.avonic.com.

Atmospheric Conditions

To prevent the risk of injury or damage to the Product or other property caused by a potentially explosive atmosphere:
- Do NOT use this Product in an area with a potentially explosive atmosphere, such as areas where the air contains high levels of flammable chemicals, vapors, or particles (such as grain, dust, or metal powders), may be hazardous.
- Exposing this Product to environments having high concentrations of industrial chemicals, including near evaporating liquified gasses such as helium, may damage or impair this Product functionality.
- Obey all signs and instructions.

Mounting

To prevent the Product from falling down which may cause injuries:
- Set up this Product on a hard, stable surface or mount it to a wall or ceiling.
- ONLY use an Avonic mount for mounting to awall or mounting pole.
- Ensure the mounting construction is capable of supporting four times the weight of the Product. (See 'General Specifications > Weight product' in the Product Datasheet for the exact weight.) Use a safety loop or drop protection that prevents the Product from falling if the mounting construction fails.
- NEVER install a Product above a person.
- Check the installation at least once a year. An im-proper mounting could cause the unit to fall off, resulting in personal injury.

Operation

The following applies to the operation of the camera: - The operational activities described in this Manual should ONLY be executed by people with enough technical knowledge to perform the activities in a safe manner.
- This Product is specifically developed for video confe-rencing / streaming via internet by companies, institutes and universities. It is NOT meant for private use in the residential area.
- This Product should ONLY be used indoors.
- This Product is NOT a medical device and should NOT be used as a substitute for professional medical judg-ment. It is NOT designed or intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of any condition or disease. Please consult your healthcare provider prior to making any decisions related to your health.

Power Adapter

To prevent the risk of life-threatening injury or damage to the Product or other property, caused by electric shock or fire hazard:
- Power this Product ONLY with the included cable and power adapter. Other adapters may not meet the applicable safety standards. They could pose a risk of death or injury when connected.
- Do NOT use damaged cables.
- Do NOT power the Product in a moist / wet environ-ment.
Before you power the Product, ensure the cable is fully inserted into the power adapter.
- Plug the power adapter directly into a power outlet.
- Do NOT use the power adapter at a moist / wet location.
- Do NOT connect or disconnect the power adapter with wet hands.
- Keep the Product, cable, and power adapter in a dry and well-ventilated area when in use.
- Stop using the power adapter and any cables if any of the following conditions exist:
* The power adapter plug or prongs are damaged.
* The cable becomes frayed or otherwise damaged.
* The power adapter is exposed to excessive moisture, or liquid is spilled into it.
* The power adapter has been dropped, and its en-closure is damaged.

Disposal and Recycling

Disposal and Recycling can be found as a separate chapter as one of the last chapters in the user manual.

In general, the term 'E-Waste' or 'Waste of Electrical and Electronic Equipment' applies to items of all types of electrical and electronic equipment and its parts that have been iscarded by the owner as waste without the intention of re-use.

E-Waste, like the CD500 and ALL of its accessories, cannot be disposed to normal waste and needs to be disposed saparetely. For this reason, send the CD500 back to Avonic or your local distributor if you want to dispose the CD500. Visit www.avonic.com for contact information and the return procedure. Avonic outsources the disposal and recycling of its E-Waste CD500 materials to Stichting Open.

Avonic is NOT responsible for personal data left in the settings of the camera as far as this is possible (like, IP Addresses, user names, passwords etc.) DELETE personal data before you send the CD500 back to Avonic!

QUICK GUIDE

For the CON400

www.avonic.com

AVONIC

QUICK GUIDE

1. Power ON
Use the supplied power adapter or connect the controller with the LAN connector for PoE powersupply. Turn the On/OFF switch to the ON position.

2. IP address setting
The default IP address is 192.168.5.173 . Enter the menu by pressing the SETTING button, use the joystick navigate down to the network settings. Enter the preferred network settings. A reboot is not necessary after changing the IP settings.

3. webUI
You can also install the CON400 by logging into the webUI at the IP address set on step 2.

4. Add a camera
Press menu, select Device Management and add a new device. The standard Visca over TCP port of Avonic PTZ cameras is 1259.

5. Selecting a camera to control
Press Cam list and select the camera you added on step 3.

6. Complete manual
Download the manual at avonic.com or scan the qr-code.

7. Contact
This quick guide is written with great care. If you have any questions, remarks or suggestions, don't hesitate to contact us. Our support team is there to assist in order for you to get the best result. You can reach us by telephone +31(0)15 711 2712 or via email support@avonic.com.
