

DCNM-FPRIOB Flush priority button panel

DICENTIS

The Flush priority button panel is connected to the Flush base device (DCNM-FBD) by CAN connection.

Functions

Controls and indicators

- One microphone priority button.
- LED bar above the priority button to indicate the status:
 - White: it is possible to speak.
 - Red: the priority is active.

Interconnections

- Two RJ12 connectors, one to connect to the DCNM-FBD Flush base device, and the other for loop through. It can be daisy-chained to other devices.

Parts included

Quantity	Component
1	DCNM-FPRIOB Flush priority button panel
